

Winter 2025 - A Traditional Christmas Eve - Event

Church of the Sun & Courtyard Illumination

1. Purpose of the Event

This project aims to provide guests with a memorable winter experience unique to Sun Valley Nasu by allowing them to enjoy illuminations accompanied by traditional Christmas carols and the magical atmosphere of the church, thereby enhancing the value of their stay.

In particular, the presentation that makes full use of the Sun Church—the symbol of our hotel—and the courtyard illuminations will create a unique charm not found at other resort facilities. This will generate a new brand experience that leads to increased guest satisfaction during their stay, buzz on social media and through word of mouth, and the acquisition of repeat customers.

Furthermore, by allowing guests to experience a “special night” through this event, we aim to inspire them to return in future years and establish this as an annual tradition that has become synonymous with winter at Sun Valley Nasu.

We will create a special evening where the chorus, resonating in the stillness, and the light display come together through authentic, large-scale Christmas carols—a performance rarely encountered in city streets or event venues.

Through this experience, we hope visitors will feel

"I want to come back again" or "I want to spend next year here too,"
, thereby establishing a “Christmas brand” unique to Sun Valley Nasu.

Furthermore, this project is an initiative to shape a new vision for Nasu Town. By having our hotel and other commercial facilities—which support tourists—serve as a welcoming hub for visitors, and by fostering culture through the unity of local residents and commercial establishments,

we aim to create a town where “visitors,” “residents,” and “local businesses” celebrate the season together—a town that embodies everyone’s ideal

—

we will paint a picture of a warm, connected Nasu.

Furthermore, we aim to raise the profile of Sun Valley Nasu by creating a scenario where this initiative is featured in newspapers and other media as a form of “new town development” in which residents take the lead in proposing ideas to revitalize local lodging facilities.

2. Event Overview

Date: Saturday, December 20

Time : 7:30 PM – 8:30 PM (Singing during the day is also possible for rehearsal purposes)

V Venue: Sun Valley Nasu Sun Church and Courtyard Illumination Venue

Performers: A special choir composed of volunteer members from various local choirs

- Singers of all ages from local choirs will participate (including children, if possible)
- Wearing white hooded capes to create a Christmas atmosphere
- Wearing red or white berets is also an option
- A man in a tuxedo at the courtyard entrance (selling song sheets and coffee to guests entering the courtyard)
- Santa (will purchase and hand out toys costing around 200 yen each from a bag)

3. Performance Details

First Half: Classical Christmas Carols Performance

- A choral performance of traditional, beautiful Christmas carols with familiar melodies.
- Making full use of the pipe organ at the Church of the Sun, we will fill the entire venue with a solemn and mystical sound.
- The choir will be positioned both inside the church and in front of the entrance, creating a spatial performance that unifies the church and the courtyard illuminations through sound and light.

Second Half: Family Participation Stage

- We will sing Christmas songs for children together with the audience.
- Santa Claus will make an appearance and distribute small gifts, creating a finale filled with smiles.

4. Objectives and Expected Outcomes

● Providing a special experience for hotel guests

Creating a memorable Christmas experience through the mystical atmosphere of the church and the choir, which is different from the usual setting.

● Improving satisfaction among families and couples (across all age groups)

Providing a memorable stay through the experience of “singing together” and “sharing the emotion.”

● Promoting Local Culture and Intergenerational Exchange

Fostering a culture where everyone from children to seniors participates and supports one another through choral singing.

● Building a new town brand

Promoting new values for Nasu Town that inspire people to think, “I want to visit Sun Valley again” or “I want to live in this town.”

● Enhancing the Brand Value of Sun Valley Nasu

Establishing the event as a “signature winter attraction” symbolized by the Sun Church and courtyard illuminations, thereby simultaneously increasing occupancy rates, customer satisfaction, and public buzz.

5. Perspective on Regional Collaboration and Community Development

In this project, we aim to break down the barriers between the multiple choirs in Nasu Town and aims to foster a unified “Christmas carol culture” that involves the entire town.

- **Promoting Collaboration Among Local Choirs**

By having choirs within the town collaborate and perform together across generational and organizational boundaries, we will foster a shared sense of local culture and pride.

- **Empowering Seniors and Fostering a Sense of Purpose**

We will provide a venue where many seniors can participate through choral activities and experience the "joy of enlivening the town through music" as central figures in the community.

- **Passing on Culture to the Next Generation and Creating New Traditions**

We will convey the joy of cultural activities to children and younger generations through choral singing, and through intergenerational exchange, we will foster a tradition where “singing together” becomes a part of everyday life in the town. As a result, a new local community that transcends generational barriers will emerge,

transforming the very fabric of town life into something warmer and more enriching.

- **Co-creation of the Community and Tourism**

We will promote a new model where hotels, commercial facilities, and residents unite to support the town’s future, and realize a town development unique to Nasu, known as a “town of music and light” and a “town that welcomes you with warmth.”

6. Key Features

- **Solemn sound design centered around organ performances at the Church of the Sun**
- **Spatial design that maximizes the unique courtyard illuminations of Sun Valley**
- **A cohesive production achieved through synchronized sound between the church interior and the outdoor illuminations**
- **A fantastical spatial composition created by synchronizing lighting and music**
- **Creating a serene and warm atmosphere perfect for a winter night**
- **Creating memories that guests and their children will cherish and talk about for years to come**

7. Budget Proposal

(1) Estimated Budget

We estimate a budget of approximately 150,000 to 200,000 yen for the implementation of this project. This includes the illumination venue, church decorations, choir costumes, and handouts for children.

we aim for a cohesive overall presentation and content that ensures high visitor satisfaction.

(2) Breakdown of Major Expenses (Estimated)

項目	内容	単価	数量	小計 (目安)
聖歌隊マント	白いフード付きマント	500～1,500円	約30名	約15,000～45,000円
ベレー帽	聖歌隊衣装用	200～500円	約30名	約6,000～15,000円
楽譜入れ	ファイルまたはホルダー	約100円	約30名	約3,000円
子ども用プレゼント	おもちゃ・お菓子+袋	200～500円	約50～100名想定	約10,000～30,000円
サンタクロース衣装	サンタ服一式	2,000～6,000円	1式	約6,000円
歌詞カード印刷	合唱・配布用印刷費	約3,000円	一式	約3,000円
ホット飲料材料	コーヒー・スープ・紙カップなど	約2,000円	一式	約2,000円
合計 (目安)				約45,000～106,000円+α

*Stage lighting and sound equipment will utilize existing facilities, so these costs are not included separately.

*The remaining funds are planned to be allocated toward dinner boxed meals for performers, as well as operational and safety management expenses for the project team.

(3) Operational Policy and Additional Notes on Costs

- We request that operational expenses be covered as much as possible from Sun Valley’s budget for cultural promotion and community collaboration.

* Costumes and consumables will be procured with the intention of reusing them.

- **If securing the budget is difficult**

we will consider collecting a participation fee of approximately 1,000 yen from choir participants; however, we will prioritize the original intent of the event—which is for local residents to host visitors—and make every effort to cover costs through the organizers.

- **Hot Drink Sales (in the courtyard)**

While visitors are viewing the courtyard illuminations, male staff members in tuxedos will serve hot coffee and soup for around 200 yen, along with song sheets. The plan is to make the viewing experience more comfortable in the cold weather while using the sales revenue to partially cover operating costs.

(4) Budget Target

Basic Target: 150,000 yen (minimum threshold for implementation)

Ideal Target: 200,000 yen (Optimal level to enhance the production and visitor satisfaction)
